

HP140

Hand Held Metal Detector

The high sensitivity **HP140 Hand Held Metal Detector** is designed to conduct effective searches of individuals and items such as clothing, baggage, correspondence, etc. It is highly sensitive to both magnetic and nonmagnetic metals and accurately detects weapons, detonators or other small metal masses. Its ergonomic design enables rapid security screening and reduces operator fatigue.

The cost of the HP140 Hand Held Metal Detector is \$198 (including GST)

Standard Features

- * High sensitivity
- * Detects both magnetic and non-magnetic metals
- * Very high reliability
- * Self-calibrating

Technical Specifications

- * Power Supply: 9V dry battery (PD140) or 9V NiMH (PD140R) with contact charger
- * Three-position switch with selection of visible alarm or audible and visible alarm
- * Built-in buzzer: high intensity continuously acoustic alarm
- * Indicator lamps for power on, alarm, and low battery charge
- * Battery life in continuous operation with alkaline batteries: 150 hours (supplied)
- * Operating temperature: 5°F to 140°F (-15°C to 60°C)
- * Storage temperature: -13°F to 158°F (-25°C to 70°C)
- * Relative humidity: 0 - 95% without condensation
- * Black, shock-resistant ABS
- * Overall dimensions: 3.15 x 13.39 x 2.17 in (80 x 340 x 55 mm)
- * Weight (including batteries): 0.80 lbs (0.365 kg)

Certification & Conformity

Conforms to the international standards currently applicable for Electrical Safety and Electromagnetic Compatibility (EMC) and to applicable EC regulations
